

RODENT CUSTOMER PREPARATION PLAN/ TREATMENT

POST TREATMENT

To ensure the treatment is successful, please ensure the following:

DO'S

Ensure all food is stored carefully in sealed containers. Keep floors and cupboards clean. Mop up spills and food droppings

DON'TS

Avoid using other rodent control products in combination with the measures implemented by our technicians as this can often reduce the effectiveness of our treatment program.

Avoid moving bait stations and traps from the locations they have been placed in.

DO I NEED TO VACATE THE HOME?

For rodent (mice, rats, etc.) treatments, it is typically not required for humans or pets to leave the home during or after the treatment.

QUESTIONS/CONCERNS?

Prior to implementation our Pest Control technicians will review all treatment strategies and will answer any questions you may have about your specific pest issue.
